Don't miss this outstanding opportunity to learn from world-renowned concussion expert Dr Matthew Antonucci

The Carrick Institute is thrilled to be bringing our 1-Day Concussion Bootcamp, presented by Dr. Matthew Antonucci, ahead of the World Federation of Chiropractic’s 17th Biennial Congress on October 11, 2023, in Queensland, Australia.

Concussion (mild traumatic brain injury) is affecting the world at epidemic proportions, with research estimating that nearly one in 10 people sustain a concussion each year. The Concussion Bootcamp, presented by the Carrick Institute, provides health care practitioners a broad, hands-on, scoping update on the diagnosis and management of acute concussions. This course also explores some promising domains focused on mitigating injury and promoting rehabilitation.

Wednesday, October 11, 2023
8:00am - 4:00pm
