CHIROPRACTIC CARE FOR INFANTS & CHILDREN

Friday, October 21 & Saturday, October 22, 2016

Delta Montréal Hotel
475 Avenue du Président-Kennedy, Montréal, Quebec H3A 1J7

In association with:

wfc.org/pediatrics2016
Welcome

The World Federation of Chiropractic, in association with the ACA Council on Chiropractic Pediatrics, is delighted to host its first seminar on the care of infants and children, two days of inspiration, information and education for chiropractors who are looking to widen their knowledge and skills base in chiropractic pediatrics.

We've designed this seminar around the most sought after topics within chiropractic pediatrics and have three top speakers who will share their extensive knowledge in this ever-popular area of practice.

We also appreciate accessibility so have chosen a location in Quebec that will suit as many practising chiropractors as possible. The Delta Montreal Hotel, in the centre of the city, is a great venue and is close to all amenities, attractions and, of course, great shopping!

Join us on October 21-22 for an energising seminar of learning, networking and chiropractic friendship.

Richard Brown

LIVE AS THOUGH YOU WERE TO DIE TOMORROW.
LEARN AS IF YOU WERE TO LIVE FOREVER.
Mahatma Gandhi
Dr Brocker is a 2007 Cum Laude graduate of Palmer College of Chiropractic. In 2012 she became board-certified as a Diplomate in Clinical Chiropractic Pediatrics following a three-year program of study with the International College of Chiropractic Pediatrics.

Dr Brocker is qualified in craniosacral therapy from the Upledger Institute.

Born into a chiropractic family, Dr Brocker received regular adjustments from her mother, Dr Patricia Petrie from a very early age.

In 2016, Dr Brocker became the President of the ACA Council on Chiropractic Pediatrics.

Formed in 2005, the Council supports chiropractors providing care to children and to promote the acceptance and advancement of pediatric chiropractic care.

Dr Brocker works alongside Dr Elise Hewitt at the renowned Portland Chiropractic Group, Portland, Oregon, specializing in chiropractic care of pregnant women, infants and children.

Dr Brocker uses her experience as a mother and her knowledge as a chiropractor to help make pregnancy a time of joy and celebration. With three children of her own, Dr Brocker finds joy in working with children and helping them to thrive.
Speaker bio: Dr Elise Hewitt

Dr. Hewitt is a Board Certified Pediatric Chiropractor who is a Certified Craniosacral Therapist.

She has been in private practice since graduating summa cum laude from Western States Chiropractic College in 1988. In her practice, which is limited to pediatrics, she specializes in the care of infants and young children.

Dr. Hewitt currently serves as Past President of the American Chiropractic Association’s (ACA) Pediatrics Council.

She is a founding member of both the ACA Pediatrics Council and the Pediatrics Council of the International Chiropractors Association (ICA).

In addition, she has served on the Board of Directors for the multidisciplinary Integrative Pediatrics Council, for which she served as Executive Committee Secretary.

In recognition of her service to and achievement within the chiropractic profession, Dr. Hewitt has been elected as a Fellow into the International College of Chiropractors.

In addition Dr. Hewitt is a member of NCMIC Speakers' Bureau and currently serves on the editorial board of the Journal of Chiropractic Medicine.
About Dr Matthew Antonunucci

While in graduate school, Dr. Antonucci became fascinated with the nervous system, particularly the brain of humankind. After receiving his doctorate in chiropractic medicine, he became a board-certified diplomate in the subspecialty of chiropractic neurology.

While completing a fellowship in functional neurology, Dr. Antonucci completed a 2-year residency under Professor Fredrick R. Carrick, training in the rehabilitation of complex neurological conditions.

Dr. Antonucci continued to engage in the advancement of his knowledge through completing 1-year fellowships in each of the following: childhood developmental disorders, vestibular rehabilitation, neurochemistry and nutrition, as well as a 2-year fellowship in traumatic brain injury rehabilitation.

In 2015, he was bestowed the highest honor in the chiropractic profession, a lifetime fellowship into the International College of Chiropractic.

Dr. Antonucci finds particular interest in educating healthcare providers, treating childhood developmental disorders, movement disorders, degenerative conditions, brain injuries, sports and neurological performance enhancement, and conducting clinical research.

Dr. Antonucci is currently the Vice President of the American Board of Brain Injury Rehabilitation, a Review Editor for the peer reviewed medical journal “Frontiers in Neuroscience”, an Associate Professor of Clinical Neuroscience for the Carrick Institute, and the Director of Neurological Performance and Rehabilitation for Plasticity Brain Centers, where he currently attends patients.
